

# Watermelon Regatta

**Sunday August 6<sup>th</sup>**

**2:00 pm race time**

Join us as we race out of the cove towards the dam where the committee boat will be stationed with a fresh supply of watermelons. Along with the tasty treats, the committee will also have a test of sailing skills. As the racers approach the boat, they will be challenged to do a 720 degree spin around one of several inflatable marks. After this test, the boats will approach the Committee boat where the officials will deposit watermelon into the watery abyss. Each boat will be required to perform a MOB Rescue Drill on said fruit, and return to the marina. The winner will be determined by the crews that can complete the tasks and get their melons back to the committee table...

We will have staggered starts if we have different classes of boats. Special consideration (aka... a head start) will given to the crews with the best pirate costumes.

Cost: \$5.00 per boat (heck melons ain't free)

Open to: All classes of boats

Skippers Meeting: 1:00 pm in the shade of under the Afterdeck

NSA Members and non-members are welcome.

Join us afterwards for the Winner Winner Chicken Dinner.
